

### INTRODUCTION TO GREENDELTA

GREENDELTA.GLOBAL

**Green Delta Global** is rapidly growing, leading the way in applying green technology and sustainable finance to everyday life and business.

**Green Delta** has built and developed 9 groundbreaking ecosystems, creating a platform that connects global technology in finance and its application within communities, aiming for sustainable economic growth and environmental protection.

The standout features of **Green Delta Global** are the tangible values from its ecosystems: **The multi**signature consensus wallet technology, which is easy to use and ensures security for financial transactions. Additionally, Green Delta has developed the Launchpad Exchange, a common platform for trading electronic currencies and stocks, helping startups go public. The smart automatic restaking mechanism of the AI BOT is a solution to optimize user profits through advanced financial technology. Carbon credits reduce the impact of climate change by encouraging investment in and trading of environmental protection projects. Furthermore, The co-branded Green Delta Visa Card is issued globally, offering flexible payment options and accumulating reward points from transactions. The corporation owns the **Green Delta E-commerce Platform**, a space for connecting and exchanging products from global brands for community use. The Green Delta Game Vault, besides entertainment, allows members to accumulate and increase income through tasks and rewards. The Green Delta Capital Investment Fund plays the role of an advisor, guiding and funding promising projects across various fields to create a sustainable financial economy model. Finally, the Green Delta SocialFi network connects a global community where users can enjoy entertainment, earn money, and freely create, promoting the development of the GreenDelta ecosystem.

The corporation always prioritizes people and sustainable development, with a commitment to making a positive contribution to the community, building green technology, green finance, a green global economy, and working together to protect the green Earth!
